SAFEGUARDING

SEPTEMBER 2017
NAME OF SCHOOL/SETTING: Hucklow Primary School

FOR ACADEMIC YEAR: 2017 / 18

Named staff/personnel with designated responsibility for Child Protection
(Serious concerns about a child or young person should immediately be reported to the Designated Safeguarding Lead (DSL) or their Deputy only)

SAFEGUARDING POLICY
Summary of Contents

- **Definitions of and Recognising Abuse**
  What is abuse? How do you know what to look for?
  What are the signs?

- **Responding to a child**
  What should you do and how to listen to the child

- **Procedures to Follow**
  What to do, when and who to tell.

- **Parental Rights / Responsibility**

- **Appendix**
  Child disclosure record sheet
  Report for DSL prior to a review meeting
  Allegations against staff, carers and volunteers report sheet
**Introduction**

At Hucklow Primary School all staff recognise that we have a shared responsibility to help keep children and young people safe by contributing to providing a safe environment for children to learn in and identifying children who are suffering or likely to suffer significant harm, and taking appropriate action with the aim of making sure they are kept safe both at home and school. The designated people at our school for safeguarding are:

- Executive Headteacher – Sue Bridges
- Designated Safeguarding Lead [DSL] - Jane Irwin / Nicola Waller – Nursery
- Deputy Officer – Matthew Hardwick / Liz Blakey
- Safeguarding Governor – Jasmin Harfoot

This safeguarding policy will operate in conjunction with other school policies including those for Online Safety, Pupil Behaviour, Positive Handling, Anti- Bullying, Inclusion, Curriculum and Health and Safety.

The main school safeguarding information/reference files are kept in the school office. These are available at all times for staff, governors or parents to refer to. A safeguarding folder containing a copy of the school safeguarding and online safety policies and the Sheffield Safeguarding policy and procedure sheets are located in the PPA room, the staffroom, the Inclusion Manager’s office and the main school office.

For further information on safeguarding please visit the Sheffield Safeguarding Website: http://www.safeguardingsheffieldchildren.org
Anyone can access this site.

**Role of the Safeguarding Team**

The main duties of the Safeguarding Team are:
- To receive, look into and record any reports from anyone regarding possible safeguarding concerns.
- To make decisions in consultation with the Executive Headteacher about the necessity to involve Social Care and/or the Police regarding any reported incidents, allegations or suspicions.
- To report disclosures or incidents to the police or the PREVENT officer where appropriate.
- To take any steps necessary to secure the immediate safety of any child who may be at risk.
- To make clear notes of incidents containing names, dates, times, nature of concerns, child’s explanations where appropriate and any further observations.
- To ensure that all discussion with a child are carried out in a non-leading way in order to receive a clear information from the child.
- To ensure confidentiality at all times and the safe keeping of records in a locked cabinet as well as on an electronic record on CPOMs.
- To work with parents and other agencies in preparing FCAF's where appropriate.
- To make decisions on whether to inform or consult parents, taking advice from Social Care on this measure if appropriate.
- To inform the Executive Headteacher and the Chair of Governors of incidents where appropriate.
- To attend and report to Child Protection Meetings and Child In Need meeting held by the investigating authorities.
- To attend and contribute to any internal enquiries as needed.
Staff Training and Induction

All staff attend 3 yearly one day basic training from the Sheffield Safeguarding Children’s Board. For new staff there is a comprehensive section of the induction training devoted to safeguarding. All members of the safeguarding team receive Advanced Safeguarding Refresher Update training every year. Training is regularly reviewed and updated to reflect national and local issues such as Female Genital Mutilation (FGM), Child Sexual Exploitation (CSE) and radicalisation and extremism (PREVENT duty).

What is Child Abuse?

- **Child Abuse** is the term used to describe how children and young people under the age of 18 are significantly harmed, often by adults but also by other children and young people.
- Children with special needs are particularly vulnerable and in need of special care.
- Children are mainly abused by the people they know and trust. Abuses may happen at home within the family or within a public environment such as a school or sports centre.
- The abuse or neglect of a child can have major long term effects on all aspects of a child’s health, development or well being.

Child abuse can take a number of forms but can be identified under 4 general categories:

- PHYSICAL ABUSE
- NEGLECT
- EMOTIONAL ABUSE [including exposure to domestic violence]
- SEXUAL ABUSE

Definitions of Abuse

**Physical Abuse:** - is the hitting, shaking, throwing, poisoning, burning, scalding etc of a child. Physical harm may also be when a parent deliberately feigns the symptoms or causes of ill health to a child whom they are looking after. This situation is commonly described as ‘Munchausen by Proxy Syndrome’. It may also be allowing a child to be deliberately harmed by an adult or another child.

**Emotional Abuse:** - is the persistent emotional ill treatment of a child such as to cause severe and adverse effects on the child’s emotional development. Verbal threats, constant criticisms, ridicule, shouting or lack of love, affection and warmth are examples.

**Neglect:** - is the persistent failure to meet a child’s basic physical and / or psychological health or development.
**Sexual Abuse:** is the forcing or enticing of a child or young person to take part in sexual activities, whether or not the child is aware of what is happening. The activities may involve physical contact, including penetrative or non-penetrative acts. They may also include non-contact activities such as looking at, or in the production of pornographic material or watching sexual activities, or encouraging children to behave in sexually ‘inappropriate ways’.

**Recognising Abuse**

**Signs of Physical Abuse.**

Be especially concerned about:

- Any injuries at all – even small bruises – to young babies who are not yet able to move independently.
- Injuries which do not match the explanation given for them.
- Bruises in places where you would not normally expect to find them, in soft tissue for example, rather than on bony prominence.
- Bruises that have a distinct pattern or shape, like hand prints, grasp or finger marks or belt marks.
- Burns or scalds with clear outlines.
- Bite marks – including bruises like love bites.
- Bruising in and around the mouth, especially in babies and younger children.

**Signs of Neglect.**

Be especially concerned about a child who:

- Is constantly hungry, greedy or is regularly stealing food.
- Has lingering illnesses which have not been treated.
- Is constantly smelly, scruffy or dirty.
- Is often dressed in inadequate or unsuitable clothes for the weather conditions.
- Suffers repeated accidents, suggesting a lack of proper supervision.
- Is constantly tired
- Does not respond when given attention or, on the other hand, one who craves attention and affection from any adult.

**Signs of Emotional Abuse.**

Be especially concerned about a child who:

- Is constantly depressed and withdrawn
- Runs away from or is reluctant or frightened to go home.
- Is regularly blamed for things that go wrong
- Is made to carry out tasks inappropriate to their age
- Is not allowed to do normal childhood activities
- Displays excessive fear of their parents or carers
- Is excessively clinging or tearful.
Signs of Sexual Abuse.

Be especially concerned about a child who:

- Exhibits sexually explicit behaviour
- Has inappropriate sexual knowledge for his or her age.
- Attempts suicide or self-inflicts injuries
- Repeatedly runs away from home.

The Basic Principles

- All children, whatever their age, culture, gender, disability, racial origin, language and / or religious belief have the right to be protected from abuse.
- The child’s welfare is paramount.
- All allegations and suspicions of abuse will be taken seriously and responded to swiftly and appropriately. They must not be ignored.
- If you believe that a child may be suffering, or at risk of significant harm, always refer your concerns to the DSL or deputy who will then contact the appropriate agency.

Child Sexual Exploitation (CSE)

The sexual exploitation of children and young people under 18 involves situations, contexts and relationships where young people (or third person, persons) receive something (e.g. drugs, alcohol, accommodation, cigarettes, gifts money) as a result of performing and / or others performing on them, sexual activities. Child sexual exploitation can occur through use of technology without the child’s immediate recognition (e.g. the persuasion to post sexual images on the internet/mobile phone with no immediate payment or gain). In all cases those exploiting the child/young person have power over them by virtue of their age, gender, intellect, physical strength and/or economic or other resources’

The National Working Group FOR Sexually Exploited Children and Young People, 2008

Both boys and girls can be exploited

Online Sexual Exploitation includes:

- Befriending through chat room / messaging services
- Online grooming techniques e.g. stalking, identity pretence, false promises
- Asking children to take and share indecent images of themselves
- Leverage for further demands e.g. threat to show other people images
- Arranging offline meeting for purpose of sexual abusing child
- Contact from perpetrators in other countries and abused online
- Speed of grooming can be very quick – leaving little thinking time

Concerns that a child may be at risk of or involved in Child Sexual Exploitation should be passed onto the DSL or Deputy who will contact the appropriate agency.

School will also ensure
• staff are aware and updated on CSE  
• Pupils are taught to protect themselves and each other  
• Pupils are taught about safe relationships, peer pressure, bullying, e-safety, and gang activity and how these topics can relate to CSE  
• All pupils know who to go to for help and support  
• Consider effective ways of raising awareness amongst our parents and carers

**Female Genital Mutilation**

Female Genital Mutilation (FGM) comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. FGM is illegal in the UK & in October 2015 it became mandatory for teachers, social workers & health professionals to report ‘known’ cases of FGM to the Police. When FGM involves girls under 18 it is classified as child abuse with potential for long-lasting harmful physical and psychological consequences.

**Indicators:** The girl’s community or country of origin is high risk of FGM plus the girl:

- Has a mother or female relative who has had FGM
- Is uncomfortable walking, sitting or standing
- Spends longer than usual in the toilet
- Has frequent urinary, menstrual or stomach problems.
- Has prolonged or repeated absences from the education setting

Or you may overhear references to being cut, closed, circumcised or other terms

Staff may also become concerned about a female pupil because:

- She appears anxious, depressed and withdrawn
- Her educational performance, aspirations or motivation may decline
- Her friends report their concerns

Girls may be most at risk during the summer holiday, so pay particular attention in the summer term, & when girls return in the autumn.

If you are concerned that a pupil/student is at immediate risk of, or has undergone FGM, you must inform your Designated Safeguarding Lead or Deputy (DSL/D) immediately

- Teachers must also report ‘known’ cases of FGM direct to the police by ringing 101

**The DSL/D must:**

- Make an immediate referral into Children’s Social Care for further investigation alongside the Police and health services
- Talk to the pupil/student about why they have made a referral (particularly if against their wishes)

**Staff should not:**

- Examine a student (unless part of their normal personal care, e.g. nappy-changing, disability care etc.)
- Treat such concerns as a ‘domestic’ issue
- Ignore what the student has told them or dismiss the need for immediate protection
- Decide that it is not their responsibility to follow up the allegation
- Discuss their concerns with the student’s family or community, in advance of any enquiries by the police, adult or children’s social care

**Responding to Children in Need and Signs of Abuse**

- The safety of the child is paramount
- Be calm and reassuring
- Be honest, never promise to keep a secret or that you will not tell anyone else.
- Do not ask leading questions or interrogate the child.
- Tell the child what action you are taking
- Always record, in writing, any incident or your reasons for concern
All concerns regarding child abuse should be treated as priority and acted upon immediately.

- If a member of staff has concerns that a child is in need or being abused they must report their concerns to the DSL or her deputy. [i.e. Jane Irwin or Nicola Waller (Nursery) or Matthew Hardwick / Liz Blakey – Deputies]. If any of these people are out of school then report your concerns to the Head of School – Angela Lucey
- The DSL or the senior person who receives the concern will then make the decision to which agency to contact.
- If it is decided to refer to Social Services, the DSL should collect clear notes of the incident or the reason for concern and check whether the child has a Child Protection Plan. Then they should contact Social Services and at least one of the child’s parents. In some incidences – if a child has a clear injury or sexual abuse has been disclosed social services should be contacted and advice sought regarding contacting parents.
- Parents are the most important people in a child’s life and should be involved in any decisions relating to their child. Where Social Services are to be involved, they would normally expect parents or carers to be informed, unless that would put the child or the member of staff at risk.
- If staff are unsure of whether to report the concern, contact the Duty Social Worker at Safeguarding Team, based at the Safeguarding Hub on Sheffield Safeguarding Hub 0114 273 4855
- Professionals and members of the public can call 0114 273 4855 at any time. They will be put through to a social worker to discuss safeguarding concerns about a child or young person.
- The Police Child Protection Unit, may be reached through the main police switchboard on 101

**Listening to the Child**

If a child says that he or she is being abused or provides information that suggests that they are being abused, the person receiving that information should:

- Be calm and reassuring but do not make promises you cannot keep. For example telling the child that you won’t tell anyone else, or saying that everything will be alright.
- Discuss with the child who exactly needs to be told about the situation.
- Take what the child says seriously.
- Ask questions only to clarify understanding of what the child has said. Do not interrogate the child. Ask only ‘open’ questions e.g. Child: ‘I got hit’ Adult: ‘How did that happen?’ **NOT** ‘Did they you hit you hard?’ Don’t introduce any information that the Child has not volunteered.
- Let the child know you understand what they have said and that you will act upon it.
• Immediately write down the incident / disclosure on a Child Concern / Disclosure Record Sheet. Make sure that you include the time and date and that you sign it.

• Pass on your concern to the DSL or Deputy. (Head teacher if DSL not available)

• Keep the child informed of what is happening.

**Procedure for Suspected or Discovered Abuse**

The starting point for the Safeguarding System is that any person who has knowledge of abuse or a child being at risk of abuse has a duty to refer their concern to one or more of the agencies with statutory duties and /or powers to investigate and intervene. The statutory Agencies are:

- Children’s Social Care [Social Services]
- The Police
- NSPCC

Any concerns or suspicions that a child may be suffering from or likely to suffer harm should be discussed with the DSL or the deputy DSL who can offer advice, guidance and access to other agencies who may later become involved.

**Suspicion:**
Share your concern with the DSL/Deputy DSL, who, dependent on the level of concern, will then decide what course of action to take. Whatever is decided, close and continued monitoring will be required with careful and accurate recording.

**Disclosure:**
Any disclosure made by a child needs to be investigated by one of the above statutory agencies. The full details of the disclosure must be recorded noting the time, date, persons present, as far as possible the child’s actual words and any action taken by yourself and others. The DSL will then check the Child Protection files /CPOMs and if the child is known will then contact the key worker involved. If the child is unknown then a referral will be made to the Sheffield Safeguarding Hub

**Allegation against staff, carers & volunteer**

If an allegation is made against a member of staff or volunteer it should be reported to the Executive Headteacher or Headteacher immediately. The disclosure must not be discussed with any other member of staff. If the disclosure is about the Executive Head teacher then it is to be reported directly to the Chair of Governors (Richard Peterkin). The following procedure should be applied in all situations where it is alleged that a person who works with children has:

- Behaved in a way which has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way which indicates that he/she is unsuitable to work with children

The allegations may relate to the persons behaviour at work, at home or in another setting. The Executive Headteacher or Head of School should receive reports in relation to allegations against those within the organisation. They should contact The Sheffield Safeguarding Team LADO to determine what steps should be taken and where necessary
obtain further details of the allegation and the circumstances in which it was made. The discussion should also consider whether there is evidence/information that establishes that the allegation is false or unfounded, whether a referral to the Children’s Social Care Services is required and/or whether disciplinary action is appropriate. Some allegations will be so serious as to require immediate referral to the Children’s Social Care Services and the Police, but common sense and judgement must be applied in reaching a decision about what action to take.

**Preventing Extremism & Radicalisation**

The ‘Prevent’ duty: From 1 July 2015 all schools, FE & HE Institutions must have “due regard” to the need to prevent people from being drawn into terrorism & extremism. This means placing an appropriate amount of weight on this need when considering other factors that are relevant to carrying out your usual functions. Extremism is defined as:

- Far right views, animal rights activism, & various forms of religious fundamentalism
- Opposition to fundamental values, e.g. democracy, the rule of law, individual liberty, respect & tolerance of different faiths & beliefs. Protecting students from these risks is similar to protecting them from harm and abuse. However, the Prevent programme must not involve any covert activity against people or communities, but specified authorities may need to share personal information to ensure, for example, that a person at risk of radicalisation is given appropriate support. Factors that make a student vulnerable include:
  - Pressure from peers, other people or the internet
  - Crime against them or their involvement in crime
  - Anti-social behaviour and bullying  •  Family tensions
  - Race or hate crime
  - Lack of self-esteem or identity  •  Personal or political grievances

Education settings should ensure that:

- They are alert to changes in behaviour which could indicate that a student needs help or protection
- They discuss & challenge ideas through the curriculum, student debates, outside speakers, etc.
- They understand & use the policies & procedures of the Sheffield Safeguarding Children Board (SSCB) to protect & assess students at risk
- Designated Safeguarding Leads & Deputies: 1. undertake mandatory ‘Workshop for Raising Awareness of Prevent’ (WRAP) training 2. Provide briefings, awareness, advice and support to staff & volunteers
- Students are safe from terrorist & extremist material when accessing the internet  •  They give a proportionate response to this risk
- They work with all services, e.g. Youth Justice, Social Care, & Community Youth Teams, to ensure the welfare of learners, staff and visitors. If you think a student might be at risk:  •  You should inform your DSL/DDSL immediately
- The DSL/DDSL can assess the needs of the student & their family with their consent through a Family Common Assessment (FCAF), and
- The FCAF can be used to request support through the Multi-Agency Support Teams (MAST) e.g. Channel programme (voluntary)
- If the concern is serious and/or immediate, the DSL/DDSL will refer this straight away via the: 1. Safeguarding Children Advisory Service (contact details below), or 2. Jo Batty & Brendan Pakenham, SY Police ‘Prevent’ team, via 101

If necessary, a 'Strategy Meeting' will be held between agencies such as Social Care and the Police to discuss the concerns & involve other services as required.
Preparing Reports

At times the DSL may ask for information about a child prior to preparing a report for case conference or a review meeting. If a referral is being made it is vital that you provide as much detailed information as possible regarding what was seen or heard to support the belief that abuse has occurred. This will include:

- The child’s personal details including attendance. [ask the office for a SIMS print out]
- The child’s location at the time of the incident or disclosure.
- A description of injuries or circumstances, which are causing concern, details of any explanation or comments from the child or carer.
- The condition and expectations of the child
- Information given to parents/carers, if any.
- Any other useful background information.

The DSL will provide you with a report sheet when necessary

Comprehensive, objective and factual records are vital to ensure Child Protection procedures are followed correctly. Please remember – The report will be discussed with parents/carers prior to the case conference.

Confidentiality

All safeguarding records are kept in a locked cabinet in the Leadership Office. NEVER leave any documents relating to safeguarding lying around. Safeguarding records are not, and should not be available for perusal by anyone else, including anyone with parental responsibilities, outside agencies. Staff and other agencies will be informed on a ‘need to know’ basis determined by the DSL.

Use of Mobile Phones

Personal Mobile phones must be switched off and stored securely. Personal mobile phones should not be used in places around school such as corridors, halls or classrooms.

Key staff have access to a school mobile phone to ease communication difficulties. These phones remain the property of the school.

Use of photographs, videos, and other images

Personal devices must not be used to record images of children. Only equipment provided by school should be used to take photographs or recordings of children. Images should be stored securely on a password protected area of the school system and not stored on personal devices. Cameras and recording equipment should be securely stored in the classroom or with the ICT technician.

School must have consent from parents for the recording of images and in the case of looked after children consent from social care.
Who has Parental Responsibility?

- The natural mother
- The natural father of a child born after 2003
- The natural father of a child born before 2003 only has Parental Responsibility if married to the child’s mother at the time of the child’s birth or later marries the child’s mother.
- The natural father who has been named by the mother in a Parental Responsibility Agreement [a legal document lodged with the family courts]
- The natural father who is named by the court in a Parental Responsibility Order.
- The Local Authority if the child is placed in care.
- The person with whom a child is placed under a Court Order – either a Residency, Care or Supervision Order.
- The Testimony Guardian if the mother is dead and the court has appointed a guardian.
- Adoptive parents – but when this occurs all the above would lose their parental responsibility.
- Step-father – only if both the natural mother and step-father have adopted the child. Again all of the above would lose their rights.
Safeguarding in the Curriculum

The curriculum addresses safeguarding through:

Children are encouraged and supported to discuss relevant issues in Philosophy for Children sessions. Personal, Social and Health Education addresses themes such as personal safety, peer pressure and peer abuse, substance misuse and medicines, sex and relationships including puberty, personal hygiene, understanding consent, rights and responsibilities, road healthy life styles (including mental health) and stranger danger. The school works with the NSPCC who deliver assemblies and workshops for children to support their understanding around abuse and keeping safe.

Children are encouraged to explore and discuss these issues and are equipped with skills they need to stay safe and know whom to turn to for help.

The curriculum is designed so that safety issues within the subject are discussed and safe practices taught, such as:

- Using equipment properly in PE and Design and Technology
- Road safety
- Food hygiene and healthy eating
- Online Safety

Monitoring of The Policy

The policy, procedures and practise is monitored through enquiry method, meetings with the Designated Safeguarding Governor and the Headteacher Report to Governors
REPORT SHEET – Child in Need

Child’s Name: ________________________ Date of Birth: ___________________
Class: ______________________________
Names / ages of other siblings? __________________________________________
