

## In Spring Term, Year 3 will be learning...

Our topic this term is called 'Does what we wear matter?'. Children will learn about different types of materials and their properties. They will explore different materials and consider what material are best for different types of climates around the world. Children will research and explore different parts of the world— focusing on extreme climates like Australia, Arctic, the Sahara desert and many more. They will then use this knowledge to design an item of clothing that will be suitable for this country and pitch it to a panel of 'Dragons'. Children must be able to explain why their garment best suits the weather it is designed for. Children will then use DT skills including sewing to make their garment and consider ways to add features and style.

### Maths

During the Spring term, we will be focusing on solving a mixture of calculations

We are continuing to practise our counting at the start of each lesson.

We are continuing to secure our times tables. Please practise your times tables at home.

### English

This Term, we are going to be writing some brilliant pieces like diaries and adverts.

Re-reading, editing and improving throughout writing using our blue pen independently to make appropriate improvements.

Identify spelling errors and different spelling patterns.

PE: Please ensure your child has their PE kit every week we will be focusing on hand ball!

Computing: We are taking part in i jam— where we will be learning how to use the ipads to create music

Religious Education: Who were the disciples of Jesus?  
Why is Lent important to Christians?

Spanish The children are learning how to speak Spanish with our MFL teacher, Miss Kachra, every Thursday!

Next term we will be celebrating our Core Value *Self Belief*. We will be encouraging children to believe in their own abilities by developing their resilience confidence. perseenceperserenceenece. .
