Schools COVID-19 Risk Assessment

Introduction

This guidance is intended to support schools, both mainstream and alternative provision, to prepare for the wider opening. It applies to primary, secondary (including sixth forms), and infant, junior, middle, upper and school-based nurseries. The guidance also covers expectations for children with special educational needs and disability (SEND), including those with education, health and care plans, in mainstream schools.

The technical name of the virus that causes COVID-19 is severe acute respiratory syndrome coronavirus 2, abbreviated as SARS-CoV-2.

This guidance is in 5 sections

Section 1: Public Health advice to minimise covid-19 risks

Section 2: School Operations

Section 3: Curriculum, behaviour and pastoral support

Section 4: Assessment and Accountability

Section 5: Contingency Planning for outbreaks

This guidance has been prepared with input from school leaders, unions and sector bodies and in consultation with PHE and the Health and Safety Executive (HSE).
The information in this risk assessment is taken from the latest government guidance published 2\textsuperscript{nd} July 2020. \textbf{This risk assessment will be updated pending further guidance on protective measures and additional PHE guidance on schools settings}

\textbf{Section 1: Public health advice to minimise coronavirus (COVID-19) risks}

We are asking schools to prepare for all pupils to return full time from the start of the autumn term, including those in school-based nurseries. Schools should not put in place rotas.

Schools must comply with health and safety law, which requires them to assess risks and put in place proportionate control measures. Schools should thoroughly review their health and safety risk assessments and draw up plans for the autumn term that address the risks identified using the system of controls set out below. These are an adapted form of the system of protective measures that will be familiar from the summer term.

\textbf{Prevention:}

1) minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school
2) clean hands thoroughly more often than usual
3) ensure good respiratory hygiene by promoting the ‘catch it, bin it, kill it’ approach
4) introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach
5) minimise contact between individuals and maintain social distancing wherever possible
6) where necessary and when it is appropriate to do so, wear appropriate personal protective equipment (PPE)

Numbers 1 to 4 must be in place in all schools, all the time.

Number 5 must be properly considered and schools must put in place measures that suit their particular circumstances.

Number 6 applies in specific circumstances.

**Response to any infection:**
7) engage with the NHS Test and Trace process
8) manage confirmed cases of coronavirus (COVID-19) amongst the school community
9) contain any outbreak by following local health protection team advice

Numbers 7 to 9 must be followed in every case where they are relevant.

As part of planning for full return in the autumn term, it is a legal requirement that schools should revisit and update their risk assessments (building on the learning to date and the practices they have already developed), to consider the additional risks and control measures to enable a return to full capacity in the autumn term. Settings should also review and update their wider risk assessments and consider the need for relevant revised controls in respect of their conventional risk profile considering the implications of coronavirus (COVID-19). Schools should ensure that they implement sensible and proportionate control measures which follow the health and safety hierarchy of control to reduce the risk to the lowest reasonably practicable level.

School employers should have active arrangements in place to monitor that the controls are:
- effective
- working as planned
- updated appropriately considering any issues identified and changes in public health advice
### Prevention

<table>
<thead>
<tr>
<th>Potential Hazard</th>
<th>Risk</th>
<th>Who might be harmed</th>
<th>Existing control measures</th>
<th>Additional control measure</th>
</tr>

<tbody>
<tr>
<td>Minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school</td>
<td>Transmission of the virus</td>
<td>Staff &amp; pupils</td>
<td>● Ensuring that pupils, staff and other adults do not come into the school if they have coronavirus (COVID-19) symptoms, or have tested positive in the last 7 days, and ensuring anyone developing those symptoms during the school day is sent home, are essential actions to reduce the risk in schools and further drive down transmission of coronavirus (COVID-19). All schools must follow this process and ensure all staff are aware of it.</td>
<td>They must be sent home and advised to follow ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’, which sets out that they must self-isolate for at least 7 days and should arrange to have a test to see if they have coronavirus (COVID-19). Other members of their household (including any siblings) should self-isolate for 14 days from when the symptomatic person first had symptoms.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>● Or If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia),</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>● If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the child, with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.</td>
<td>School must follow this process and ensure all staff are aware of it. Any child awaiting collection will wait in the main entrance on a plastic chair- if possible open the main door. Children to be accompanied by TA from their bubble. Any children awaiting collection at nursery will wait in the entrance space outside the main office on a plastic chair. Child to be accompanied by a TA from their bubble.</td>
</tr>
</tbody>
</table>

*Version 7 – Schools Covid-19 RA – 02.07.2020 Produced by Sarah Green, Bethan Plant & Debbie Hanson – Sheffield City Council- edited by L Duckworth, S Bywater and Katie Hanson*
- PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs).

- As is usual practice, in an emergency, call 999 if someone is seriously ill or injured or their life is at risk. Anyone with coronavirus (COVID-19) symptoms should not visit the GP, pharmacy, urgent care centre or a hospital.

- Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell.

**Public Health England is clear that routinely taking the temperature of pupils is not recommended as this is an unreliable method for identifying coronavirus (COVID-19)**

- More information on PPE use can be found in the [safe working in education, childcare and children’s social care settings, including the use of personal protective equipment (PPE) guidance](#).

- Any members of staff who have helped someone with symptoms and any pupils who have been in close contact with them do not need to go home to self-isolate unless they develop symptoms themselves (in which case, they should arrange a test) or if the symptomatic person subsequently tests positive (see below) or they have been requested to do so by NHS Test & Trace.

- The area around the person with symptoms must be cleaned with normal household disinfectant after they have left to reduce the risk of passing the infection on to other people. See the [COVID-19: cleaning of non-healthcare settings guidance](#)

**Clean hands thoroughly more often than usual**

<table>
<thead>
<tr>
<th>Transmission of the virus</th>
<th>Staff &amp; Pupils</th>

<tbody>
<tr>
<td>School must ensure that pupils clean their hands regularly, including when they arrive at school, (COVID-19) is an easy virus to kill when it is on the skin. This can be done with soap and running water or hand sanitiser</td>
<td></td>
</tr>
</tbody>
</table>
when they return from breaks, when they change rooms and before and after eating.

Points to consider and implement:

- Ensure that there is enough hand washing or hand sanitiser ‘stations’ available so that all pupils and staff can clean their hands regularly.
- Ensure there is suitable supervision of hand sanitiser use, in case of risk of ingestion.
- Build these into the school culture as this will be needed for the foreseeable future.
- Small children and pupils with complex needs should continue to be helped to clean their hands properly. Skin friendly skin cleaning wipes can be used as an alternative.
- For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared.
- Classroom based resources, such as books and games, can be used and shared within the bubble; these should be cleaned regularly, along with all frequently touched surfaces.
- Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles. Where settings have both an a.m. and p.m. nursery groups and the above is not possible the setting should think carefully about the types of shared resources and equipment used. Ensuring that these are thoroughly

Ensure that hand gels, sanitisers and wipes are available for staff and pupils to regularly use.
Sanitising pumps installed at key points in school-
- school building entrances, entry/exit points of: dining hall, toilets, staffroom, carpark, office, Terapins, IR and computer suit.
Sanitising pumps and stations installed at key points in Nursery and the first start building-
- building entrances, entry/exit points of: Nursery door, toilets, kitchen area and offices.
Encourage staff and pupils to regularly wash their hands thoroughly with soap and water for at least 20 seconds
https://www.who.int/gpsc/clean_hands_protection/en /
Ensure approved cleaning products are available to clean hard surfaces regularly throughout the day.
All cleaning products should be stored out of the reach of children.
All cloths and wipes should be doubled bagged and put in the external waste.
Pupils regularly reminded not to share stationary- each child to have their own zip wallet with a pen, pencil, whiteboard pen and white board.
Classes to have own sets of equipment regularly cleaned and changed between sessions/ groups.
Children who require sensory toys etc will have their own box of resources- these will be cleaned regularly.
Children who require sensory toys etc will have their own box of resources- these will be cleaned regularly. The sensory room will only be used by
cleaned/wiped between groups. It is recommended to reduce the numbers of toys in this circumstance and ensure that cleaning is consistent after every group to minimise risk.

- Outdoor playground equipment should be more frequently cleaned. This would also apply to resources used inside and outside by wraparound care providers.

- Those children who need it as part of their specific education plans and will be deep cleaned between uses.

- Any equipment that is used between classes - PE etc will be cleaned or quarantined for 48/72 before use.

- Bins (where possible to have a lid on) that contain used tissues, paper towels etc. must be regularly emptied.

- F2 outdoor provision, along with large outdoor equipment, will be cleaned daily.

- F1 outdoor provision, along with large outdoor equipment, will be cleaned daily.

- Limit the amount of equipment children bring into school each day, to essentials such as lunch boxes, hats, coats and books. Bags are allowed. PE shoes can be brought in if needed - no PE kits for the first half term.

- Children will be asked to bring a bag with a change of clothes and water bottles/lunch boxes and coats - no other items to be brought into Nursery.

- Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, especially where this does not contribute to pupil education and development. Similar rules on hand cleaning, cleaning of the resources and rotation should apply to these resources.

- Reading books will be organised into ‘bubble sets’ and on return, each book will be quarantined for 48 hours before giving to another child.

- Each class will have their own tub of playtime equipment that will not be shared with others - these will be thoroughly cleaned daily.
<table>
<thead>
<tr>
<th>Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach</th>
<th>Transmission of the virus</th>
<th>Staff &amp; Pupils</th>
<th>Public Health England does not (based on current evidence) recommend the use of face coverings in schools. This evidence will be kept under review. They are not required in schools as pupils and staff are mixing in consistent groups, and because misuse may inadvertently increase the risk of transmission. There may also be negative effects on communication and thus education. For teachers wishing to use PPE when teaching, a clear viore will be preferred.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Introduce enhanced cleaning, including cleaning frequently touched surfaces often using approved products</td>
<td>Transmission of the virus</td>
<td>Staff &amp; Pupils</td>
<td>To meet the cleaning regimes and conform to government guidance on maintaining the standard required to reduce the risk of contamination the school has increased resources and extended the hours cleaning staff operate. For further information on cleaning visit the government's advice <a href="https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings/covid-19-decontamination-in-non-healthcare-settings">https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings/covid-19-decontamination-in-non-healthcare-settings</a></td>
</tr>
<tr>
<td></td>
<td></td>
<td>A cleaning schedule must be implemented throughout the site, ensuring that contact points, e.g. work surfaces, door handles, bannisters, window levers, taps etc. are all thoroughly cleaned and disinfected regularly. Cleaning protocol is as follows:</td>
<td>Cleaning an area with normal household disinfectant after someone with suspected coronavirus (COVID-19) has left will reduce the risk of passing the infection on to other people</td>
</tr>
<tr>
<td></td>
<td></td>
<td>● Hard surfaces to be cleaned prior to disinfecting ● A combined detergent disinfectant solution or chlorine-based cleaner is to be used ● Extra attention is to be given to frequently “Touched” areas and surfaces, e.g. doors, toilets, door handles, phones, light switches and door fobs, keyboards, whiteboards etc. ● Hand towels and hand wash area to be checked and replaced as needed by the cleaning and caretaking staff.</td>
<td></td>
</tr>
</tbody>
</table>
● Enhance the cleaning regimes for toilet facilities, particularly door handles, locks and the toilet flush, etc.
● Only cleaning products supplied by the school are to be used
● Bin liners should be used in all bins
● Ensure that all COSHH assessments are carried out for all cleaning products
● Staff are trained in the safe use of cleaning products
● Ensure that all cleaning products are stored safely and out of the reach of pupils
● The correct PPE should be worn at all times by the Cleaning staff and disposed of by double bagging and put in the external waste

Wear disposable or washing-up gloves and aprons for cleaning. These should be double-bagged, then stored securely for 72 hours then thrown away in the regular rubbish after cleaning is finished.

Using a disposable cloth, first clean hard surfaces with warm soapy water. Then disinfect these surfaces with the cleaning products you normally use. Pay particular attention to frequently touched areas and surfaces, such as bathrooms, grab-rails in corridors and stairwells and door handles if an area has been heavily contaminated, such as with visible bodily fluids, from a person with coronavirus (COVID-19), use protection for the eyes, mouth and nose, as well as wearing gloves and an apron

Wash hands regularly with soap and water for 20 seconds, and after removing gloves, aprons and other protection used while cleaning

It is advised that deep cleaning post COVID exposure (known or suspected) should be undertaken with chlorine based cleaning solutions with a concentration of 1000 parts per million (ppm) of available chlorine

Enhanced cleaning schedule -

● All classrooms to be cleaned at lunchtime and at the end of the day - undertaken by cleaners
● Surface clean in between sittings in the dining hall - undertaken by MDSAs
● Any communal area - ICT suit must have a surface clean between groups (as well as sanitise on entry and exit). Surface wipe undertaken by TA of group using.
<table>
<thead>
<tr>
<th>How to group children</th>
<th>Transmission of the virus</th>
<th>Staff and pupils</th>
</tr>
</thead>
<tbody>
<tr>
<td>All classrooms to be cleaned at lunchtime, between sessions and at the end of the day: undertaken by cleaners and nursery staff. Regular cleaning of surfaces and equipment will take place during sessions.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- School to assess circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around school, they can look to implement year group sized ‘bubbles’.
- All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable.

These are not alternative options and both measures will help, but the balance between them will change depending on:

- children’s ability to distance
- the lay out of the school
- the feasibility of keeping distinct groups separate while offering a broad curriculum (especially at secondary)

Year groups will be in ‘bubbles’ but they will stay within class bubbles as much as possible.

- Year groups will come into school and leave school at the same given time through the same entrance.
- Year groups will eat together in the same given slot
- All playtimes will be in class bubbles not year group bubbles.
- Children across a year group bubble will only mix when necessary - for example, teaching interventions.
- Nursery will form a year group bubble, start and end times will be staggered to reduce the number of parents on site at any time.
<table>
<thead>
<tr>
<th>Measures within the classroom</th>
</tr>
</thead>
<tbody>
<tr>
<td>● Ideally, adults should maintain 2 metre distance from each other, and where possible from children.</td>
</tr>
<tr>
<td>● We know that this is not always possible, particularly when working with younger children, but if adults can do this when circumstances allow, that will help. In particular, they should avoid close face to face contact and minimise time spent within 1 metre of anyone.</td>
</tr>
<tr>
<td>● For children old enough, they should also be supported to maintain distance and not touch staff and their peers where possible.</td>
</tr>
<tr>
<td>● Schools should make small adaptations to the classroom to support distancing where possible. That should include seating pupils side by side and facing forwards, rather than face to face or side on, and might include moving unnecessary furniture out of classrooms to make more space.</td>
</tr>
</tbody>
</table>

**Children in KS2** will be encouraged to maintain distance from peers.

**In KS2 all classrooms are set up in rows - facing forward.**

In KS1, classrooms are set up in provision style but with smaller group sizes to allow for more space between each child.

**Nursery children** continue with usual provision style - care taken to ensure areas are spaced out to encourage distancing as much as possible with young children.
<table>
<thead>
<tr>
<th>Transmission of the virus</th>
<th>Staff &amp; Pupils</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minimise contact between individuals and maintain social distancing wherever possible</td>
<td></td>
</tr>
</tbody>
</table>

- Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. They have been used in schools in the summer term in recognition that children, and especially the youngest children, cannot socially distance from staff or from each other and this provides an additional protective measure.

- Where staff need to move between classes and year groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults.

- Maintaining a distance between people whilst inside and reducing the amount of time they are in face to face contact lowers the risk of transmission.

- Maintaining consistent groups remains important, but given the decrease in the prevalence of coronavirus (COVID-19) and the resumption of the full range of curriculum subjects, schools may need to change the emphasis on bubbles within their system of controls and increase the size of these groups.

- When staff or children cannot maintain distancing, particularly with younger children in primary schools, the risk can also be reduced by keeping pupils in the smaller, class-sized groups.

- All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. Where staff need to move between classes and year groups, they should try and keep their distance.

Minimising contacts and mixing between people reduces transmission of coronavirus (COVID-19).

Whatever the size of the group, they should be kept apart from other groups where possible and older children should be encouraged to keep their distance within groups.

When using larger groups the other measures from the system of controls become even more important, to minimise transmission risks and to minimise the numbers of pupils and staff who may need to self-isolate. We recognise that younger children will not be able to maintain social distancing, and it is acceptable for them not to distance within their group.

**Year group bubbles of 60:** however these bubbles will be kept as class bubbles of 30 as much as possible.

See guidance regarding bubbles - appendix 1

Similarly, it will not be possible when working with many pupils who have complex needs or who need close contact care. These pupils’ educational and care support should be provided as normal.

See appendix 1

Establishing Protective Social Bubbles, see appendix 1
distance from pupils and other staff as much as they can, ideally 2 metres from other adults. It is recognised this is not likely to be possible with younger children and teachers in primary schools can still work across groups if that is needed to enable a full educational offer.

- You should make small adaptations to the classroom to support distancing where possible. That should include seating pupils side by side and facing forwards, rather than face to face or side on, and might include moving unnecessary furniture out of classrooms to make more space.

- Movement around the school site must be kept to a minimum. While passing briefly in the corridor or playground is low risk, schools should avoid creating busy corridors, entrances and exits.

- Movement between classrooms / on corridors should be done in a phased way to maintain social distancing where possible.

- Where possible one way up / down rules should be implemented on all staircases, and carried out in a "phased way" – one class at a time to ensure social distancing where possible.

- School to have staggered break times and lunch times (and time for cleaning surfaces in the dining hall between groups).

- You should ensure that spaces are available and used to help staff to distance from each other.

Remind small children - using the correct format that it’s not safe to hug / kiss / be in close contact with other children.

Parents are encouraged to reinforce social distancing rules at home.

**Classes Y3-6 will seat children rows side by side.**

Send letters to parents to consider the types of clothes they send their child to school in e.g. elasticated waist trousers, skirts, Velcro shoes / trainers, any clothing that doesn’t require adult supervision.

Parents are reminded via a letter, newsletter etc. that their child is not allowed to take toys from home into the setting.

The school will consider how each staff meeting will be delivered- splitting the group in half, virtual meetings, smaller year group meeting slots- this will prevent proximity contact.

See guidance regarding gifts- see appendix 2

Governors Meetings, SEN meetings with parents etc.

Transmission of the virus

Staff

- Where possible Staff are to maintain a safe distance between each other (2 metres) in the meeting room / office environment
- Arrange zoom conference calls
- Other online conference call facilities
- Meetings with parents should be pre-arranged in a setting where social distancing can be maintained. If this is not possible then the meeting can take place over the telephone or via zoom etc.

All governor meetings will be arranged via Zoom.

Booking process for parent meetings - through the main office - all initial meetings with parents will be conducted over the phone.

Pupils arriving and leaving school

Transmission of the virus

Staff & Pupils

- Introduce staggered start and finish times to reduce congestion and contact at all times
- Manage external site access points to enable social distancing where possible
- Pupils should wash their hands for at least 20 seconds with soap and warm water when they arrive at School

All entrances to school will be open: Calder Way, Hucklow Road - pupil entrance and Hucklow Road - F2 and Y1 entrance.

There will be sanitising stations at every entrance/exit. Pupils and parents must sanitise their hands on entering the school playground. A member of staff will be stood at each entrance to remind parents and children where to go and

We will operate a staggered start time (please see below) to minimise contact and reduce congestion at the beginning and the end of the day.
Only 1 parent to bring and collect children to/from school. Parents must leave as soon as they have taken their child to line and must follow the one way system and social distancing measure in place. Signage to be displayed to support parents to do this.

Nursery will follow a staggered drop off system where each class group will be dropped and collected at 10 Min intervals from 8.30-9.00 and 3.00-3.30. Only 1 parent to bring and collect children to/from school. Wherever possible, parents must leave as soon as they have taken their child to line and must follow the
one way system and social distancing measure in place. Signage to be displayed to support parents to do this. Exceptions will be made for new children visiting the setting for transition - no more than 4 parents will be in the setting at any time during these transition visits and will follow strict social distancing. These will be kept at the absolute minimum while ensuring the well being of the child.

School has a process for removing face coverings when pupils and staff who use them arrive at school and communicate it clearly to them - disposable masks will be put into a yellow waste bag before putting in the bins at each entrance and reusable masks need to be put into a sealable plastic bag before putting away into rucksack/pocket. Sanitise after removing.

Pupils must be instructed not to touch the front of their face covering during use or when removing them. They must wash their hands immediately on arrival (as is the case for all pupils), dispose of temporary face coverings in a covered bin or place reusable face coverings in a plastic bag they can take home with them, and then wash their hands again before heading to their classroom.

</table>
● Any such meetings should take place at a safe distance
● A record all visitors to be made of those who attend site
● A clear demarcation line is in place around the reception areas so that 2 metre social distancing where possible can be maintained
● Where possible a visual screen / barrier is in place to protect office staff
● Introduce staggered start and finish times to reduce congestion and contact at all times
● Manage external site access points to enable social distancing where possible
● Where electronic / touch screen “signing in” systems are used – ensure these are cleaned / wiped down after every person has used the system or temporarily disabled to avoid risk of contamination
● Allow plenty of space (where possible two metres) between people waiting to enter the site
● Regularly clean and disinfect common contact surfaces in reception, office, access control and delivery areas e.g. screens, telephone handsets, desks, particularly during peak flow times.
● Where visitors are expected to sign in at reception – ensure this is carried out by office staff and no pens are visible
● Regularly clean staplers, hole punchers, “touch screen” photocopiers, marker pens & whiteboards

pick up their children. This should happen at the school gate.
● A system and process should be in place for staff to greet each child, ensure they wash their hands immediately on arrival and then go straight to their classroom
● Parents are reminded not to park in the School car park and adhere to parking sensibly to avoid conflict with local residents

● If it is customary for parents to gather in the playground or to enter the building to drop off or collect children this should no longer be allowed and neither should gathering at the school gates to talk to other parents.
● Systems in place to deal with those arriving at school who are not supposed to be there
● A record is kept of all visitors to the site and who they visited.
● Where possible introduce one way systems in to the building
● Wipes to be made available at the side of the “signing in” system, photocopiers, marker pens etc.
● Signage should be displayed in the reception area to inform parents, pupils and visitors to keep 2 metres apart
● And also to wipe down screens after use
● Hand sanitizers / gels and wipes are available on reception for parents, pupils and visitors to use
● Ensure appropriate cleaning products are available for staff to clean all hard surfaces on a regular basis.
● All used wipes and cloths should be doubled bagged and put in the external waste bin
| Specialist, clinicians etc. visiting schools to provide a service to pupils with SEND | ● Specialists, therapists, clinicians and other support staff for pupils with SEND should provide interventions as usual.  
● Supply teachers, peripatetic teachers or other temporary staff can move between settings.  
● They should ensure they minimise contact and maintain as much distance as possible from other staff and ensure site guidance on physical distancing and hygiene is explained to them on or before arrival.  
● Where visits can happen outside of school or college hours, they should.  
● A record should be kept of all visitors. | ● Information to be sent to all parents explaining that no cash will be handled by the office staff |

| Cloakroom Areas | Transmission of the virus – leading to potential ill health & fatality | Staff, Parents & Pupils | ● Staff to manage the number of pupils accessing the cloakroom areas at the start, break times, lunchtimes and end of the School day to ensure social distancing is maintained where possible | Parents should be allowed onto school site only when strictly necessary and by appointment and one parent only.  
Inform all parents that once they have dropped their child off at School, they must leave the site as soon as possible- drop their child off at their designated cone, where a member of staff will be waiting- parents to leave the grounds straight away.  
Stagger the use of cloakroom areas. Cloakrooms to be kept tidy.  
Parents bring their child to the main First Start entrance where they will be met by staff and taken to their classrooms. Parents will leave via one way |

School should ask parents and staff to inform them immediately of the results of a test:

See flowcharts for staff and pupils return to work/school

**Flowchart describing return to work Covid test - Asymptomatic worker**

The PHE health protection team will work with schools in this situation to guide them through the actions they need to take. Based on the advice from the health protection team, schools must send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 14 days since they were last in close contact with that person when they were infectious. Close contact means:

- provide details of anyone they have been in close contact with if they were to test positive for coronavirus (COVID-19) or if asked by NHS Test and Trace
- **self-isolate** if they have been in close contact with someone who develops coronavirus (COVID-19) symptoms or someone who tests positive for coronavirus (COVID-19)

If you have two or more confirmed cases within 14 days or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, you may have an outbreak, and must continue to work with colleagues in public health who will be able to advise if additional action is required.

The embedded flow charts are generic workplace return to work diagrams. It is suggested that any staff member with a negative test result should discuss their return to work with their school head teacher in light of the further guidance given on pages 17 and 18.
- direct close contacts - face to face contact with an infected individual for any length of time, within 1 metre, including being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin)
- proximity contacts - extended close contact (within 1 to 2 metres for more than 15 minutes) with an infected individual
- travelling in a small vehicle, like a car, with an infected person

The health protection team will provide definitive advice on who must be sent home. To support them in doing so, we recommend schools keep a record of pupils and staff in each group, and any close contact that takes places between children and staff in different groups (see section 5 of system of control for more on grouping pupils). This should be a proportionate recording process.

Schools do not need to ask pupils to record everyone they have spent time with each day or ask staff to keep definitive records in a way that is overly burdensome.

A template letter will be provided to schools, on the advice of the health protection team, to send to parents and staff if needed. Schools must not share the names or details of people with coronavirus (COVID-19) unless essential to protect others.

Household members of those contacts who are sent home do not need to self-isolate themselves unless the child, young person or staff member who is self-isolating subsequently develops symptoms. If someone in a class or group that has been asked to self-isolate develops symptoms themselves within their 14-day isolation period they should follow [stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection](https://www.gov.uk/government/publications/stay-at-home-guidance-for-households-with-possible-or-confirmed-coronavirus-covid-19-infection). They should get a test, and:
| Administering First Aid | Transmission of the virus | Staff & pupils | ● if the test delivers a negative result, they must remain in isolation for the remainder of the 14-day isolation period. This is because they could still develop the coronavirus (COVID-19) within the remaining days.
● if the test result is positive, they should inform their setting immediately, and must isolate for at least 7 days from the onset of their symptoms (which could mean the self-isolation ends before or after the original 14-day isolation period). Their household should self-isolate for at least 14 days from when the symptomatic person first had symptoms, following *stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection*. |
| Administering Medication | Transmission of the virus | Staff & pupils | ● Children, young people or learners who require administration of medicines should continue to receive care in the same way
● No additional PPE over and above what would be normally is needed because of coronavirus
If a child’s care plan requires updating a zoom meeting should be arranged with a member of school staff, parents and a professional health worker, school nurse etc. to address any issues relating to the care plan |

Children sit in groups (within their class bubble) depending on what they are eating. Children eating school meals will have their food delivered to them by their TA. Cutlery will be laid out by the catering staff before children arrive in the hall - after tables have been cleaned.

Children in Nursery bring packed lunches from home.

All tables and chairs will be cleaned after sitting with an approved product. This is allocated within timetable.

All cloths and wipes should be disposed of by double bagging and put in the external waste.
| Fire Drills / Activation of the fire alarm | Transmission of the virus | Staff, Pupils, Cleaners, Catering staff etc. | • When undertaking a fire drill social distancing should be maintained at all times where possible  
• Markers should be displayed at the assembly area / muster point to avoid congestion  
• A phased return must be adhered to when leaving and re-entering back into the school premises to maintain social distancing  
• Washing of hands etc. still required on entry back into the building |
| --- | --- | --- | --- |
|  |  |  | Ensure a fire drill plan is produced highlighting where each year group will be positioned - each bubble will line up at their coloured cone area.  
each class lines up in yard on own marker lines  
You may have to use one or more external areas of the School to achieve social distancing where possible - plan to be shared on September inset day.  
Ensure someone is in charge to co-ordinate the fire drill and communicate with others who might be using other areas of the site. You may need one more fire marshal to achieve this - JW, LD and SBy  
A debrief must be undertaken to share any lessons learnt  
Ensure the fire drill is recorded in the fire precautions log book  
Ensure that the fire alarm is regularly serviced / maintained to reduce the risk of false activations |
| Home Visits to be undertaken by staff | Transmission of the virus – leading to potential ill health & fatality | Staff | • Home visits should only be undertaken if absolutely necessary  
• Staff should use their own vehicle to get to the visit  
• Once they arrive they must knock on the door and step back to maintain social distancing  
• It may be possible to have a conversation with parents and pupils via an open window  
• Lone working procedures must be adhered to at all times when undertaking home visits e.g. buddy systems, regular telephone contact with School |
|  |  |  | Home visits will continue when necessary - when telephone communication cannot be made or there is an immediate concern. Staff will not enter the house but talk to parents/children on the doorstep whilst maintaining social distance. Home visits will be undertaken by two members of staff - preferred method of transport will be walking where possible.  
As school  
If staff are concerned over a pupil’s welfare this must be reported immediately to the Headteacher. |
| Deliveries | Transmission of the virus – leading to potential ill health & fatality | Staff, pupils & delivery drivers | • When placing orders for delivery ensure that you inform the company of the Schools protocol for accepting deliveries  
  • If practicable drivers should wash or clean their hands before unloading goods and materials  
  • Do not approach delivery staff; allow packages to be left in a safe place e.g. main entrance  
  • Staff should not sign for deliveries  
  • Hands are to be thoroughly washed after handling all deliveries  
  • Keep deliveries to a minimum with essential items only | All deliveries to School (including milk and fruit) should be left at the main entrance and sanitized with wipes before taking them inside the School premises. |
|---|---|---|---|
| Contractors / essential repair work | Transmission of the virus – leading to potential ill health & fatality | Staff, pupil, Contractors etc. | • Only contractors carrying out essential maintenance work are to be allowed on the School site  
  • Staff and contractors are to maintain a safe distance between themselves and others (2 metres).  
  • All contractors are to wash their hands upon entering the site  

Strict hygiene rules to be implemented, all contractors are to be asked to do the following:  
• Wash hands on entry into individual work areas – or use alcohol-based hand sanitiser.  
• Repeat the hand washing/sanitising every hour.  
• Site inductions are to be carried out following social distancing principles (2m separation). | The contractor is to notify the Caretaker/ business manager of all areas visited, in order that these can then be thoroughly cleaned |
| Information to Staff, pupils & parents | **Staff, pupils, parents etc.** | **Weekly briefings to shared updates.**
Texts to parents to inform of any updates or to sign post to the Government website.

Staff encouraged to regularly visit the government website for updated information

**September INSET days**

https://www.gov.uk/coronavirus
https://www.nhs.uk/conditions/coronavirus-covid-19/ |
| --- | --- | --- |
| ● Posters to displayed in the main entrance, staff room and in suitable places around the School site
● Regular meetings with staff will be carried out, informing them of the risks posed by the virus and any new / updated government guidance available
● Regular updated information will be shared with parents via a letter, email, newsletter, school website etc. |  |  |
## Section 2: School operations

<table>
<thead>
<tr>
<th>Dedicated school transport, including statutory provision</th>
<th>Transmission of the virus</th>
<th>Staff, pupils, Driver &amp; Passenger Assistants</th>
<th>The approach to dedicated transport should align as far as possible with the principles underpinning the system of controls set out in this document and with the approach being adopted for your school. It is important to consider:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td>- how pupils are grouped together on transport, where possible this should reflect the bubbles that are adopted within school</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>- use of hand sanitiser upon boarding and/or disembarking</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>- additional cleaning of vehicles</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>- organised queuing and boarding where possible</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>- distancing within vehicles wherever possible</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>- the use of face coverings for children over the age of 11, where appropriate, for example, if they are likely to come into very close contact with people outside of their group or who they do not normally meet</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Dedicated school services can take different forms. Some journeys involve coaches regularly picking up the same pupils each day; others involve use of a minibus whilst other services are used by different pupils on different days, or by pupils with SEND. The precise approach taken will need to reflect the range of measures that are reasonable in the different circumstances.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>You should encourage parents, staff and pupils to walk or cycle to school if at all possible.</td>
</tr>
</tbody>
</table>

- **School minibus to be cleaned between groups.**
- **Children on the minibus will be from the same bubble at all times.**
| Staff using public transport to get to and from | Transmission of the virus | Staff | ● Staff should be encouraged to walk or cycle to work where possible  
● Where staff use public transport they must maintain social distancing at all times and avoid contact with hard surfaces (where possible)  
● Face coverings should be worn when using public transport  
● Staff should be discouraged from eating and drinking when using public transport to reduce the risk of contamination by touching their mouth and face  
● When staff arrive at their workplace they must clean their hands for at least 20 seconds with soap and warm water before entering any of the office, kitchen areas etc. | Further information is available on the government website  
|-----------------------------------------------|---------------------------------|-----------------------------------|----------------------------------------------------------------------------------|
| Attendance expectations                        |                                 | School attendance will be mandatory again from the beginning of the autumn term. This means from that point, the usual rules on school attendance will apply, including:  
● parents’ duty to secure that their child attends regularly at school where the child is a registered pupil at school and they are of compulsory school age;  
● schools’ responsibilities to record attendance and follow up absence  
● the availability to issue sanctions, including fixed penalty notices in line with the local authorities’ code of conduct  
● communicate clear and consistent expectations around school attendance to families (and any other professionals who work with the family | JI and SBu to resume usual monitoring and record keeping. |
- Identify pupils who are reluctant or anxious about returning or who are at risk of disengagement and develop plans for re-engaging them. This should include disadvantaged and vulnerable children and young people, especially those who were persistently absent prior to the pandemic or who have not engaged with school regularly during the pandemic.

| Pupils who are shielding or self-isolating | A small number of pupils will still be unable to attend in line with public health advice because they are self-isolating and have had symptoms or a positive test result themselves; or because they are a close contact of someone who has coronavirus (COVID-19).

- if rates of the disease rise in local areas, children (or family members) from that area, and that area only, will be advised to shield during the period where rates remain high and therefore they may be temporarily absent (see below).

- some pupils no longer required to shield but who generally remain under the care of a specialist health professional may need to discuss their care with their health professional before returning to school in September. |

<p>| |</p>
<table>
<thead>
<tr>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Shielding advice for all adults and children will pause on 1 August, subject to a continued decline in the rates of community transmission of coronavirus (COVID-19). This means that even the small number of pupils who will remain on the shielded patient list can also return to school, as can those who have family members who are shielding. Read the current advice on shielding.</td>
</tr>
</tbody>
</table>

Where a pupil is unable to attend school because they are complying with clinical and/or public health advice, it is expected that schools will be able to immediately offer them access to remote education. Schools should monitor engagement with this activity.

Where children are not able to attend school as parents are following clinical and/or public health advice, absence will not be penalised.

| Pupils and families who are anxious about return to school | Consider the potential concerns of pupils, parents and households who may be reluctant or anxious about returning |

<p>| |</p>
<table>
<thead>
<tr>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>If parents of pupils with significant risk factors are concerned, it's recommended that you discuss their concerns and provide reassurance of the measures you are putting in place to reduce the risk in school.</td>
</tr>
</tbody>
</table>
- This may include pupils who have themselves been shielding previously but have been advised that this is no longer necessary, those living in households where someone is clinically vulnerable, or those concerned about the comparatively increased risk from coronavirus (COVID-19), including those from Black, Asian and Minority Ethnic (BAME) backgrounds or who have certain conditions such as obesity and diabetes.

<table>
<thead>
<tr>
<th>Staff who are clinically vulnerable or extremely clinically vulnerable</th>
<th>consider how those members of staff are deployed to enable them to work remotely if possible or in roles in school where it is easier to maintain social distancing.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace.</td>
</tr>
<tr>
<td></td>
<td>As a general principle, pregnant women are in the ‘clinically vulnerable’ category and are advised to follow the relevant guidance available for clinically-vulnerable people.</td>
</tr>
</tbody>
</table>

- Clarity with parents that pupils of compulsory school age must be in school unless a statutory reason applies (for example, the pupil has been granted a leave of absence, is unable to attend because of sickness, is absent for a necessary religious observance etc.).

- Individuals who were considered to be clinically extremely vulnerable and received a letter advising them to shield are now advised that they can return to work from 1 August as long as they maintain social distancing. Advice for those who are extremely clinically vulnerable can be found in the guidance on shielding and protecting people who are clinically extremely vulnerable from COVID-19.

| Staff who may otherwise be at increased risk from coronavirus (COVID-19) | ● Ensure that the individual risk assessment is completed | Some people with particular characteristics may be at comparatively increased risk from coronavirus (COVID-19), as set out in the [COVID-19: review of disparities in risks and outcomes report](#). The reasons are complex and there is ongoing research to understand and translate these findings for individuals in the future.

If people with significant risk factors are concerned, we recommend schools discuss their concerns and explain the measures the school is putting in place to reduce risks. Headteachers should try as far as practically possible to accommodate additional measures where appropriate.

People who live with those who have comparatively increased risk from coronavirus (COVID-19) can attend the workplace. |
|---|---|---|
| Supporting staff | ● Governing Bodies and Headteachers should have regard to staff (including the headteacher) work-life balance and wellbeing.  
● Schools should ensure that they have explained to all staff the measures proposing to be put in place and involve all staff in that process e.g. implement flexible working practices in ways that promote good work life balance for teachers and leaders  
● All employers have a duty of care to their employees, and this extends to their mental health  
● Schools may already have mechanisms to support staff wellbeing and these will be particularly important, as some staff may be particularly anxious about returning to school | Head of School and Business Manager are the mental first aiders- available at all time to staff  
X2 weekly drop ins with Head of School for staff who feel they need to talk  
Listening service, counselling, Space to breathe available. |
| Staff Deployment | ● School may need to alter the way in which staff are deployed, and use existing staff more | It is important that planning builds in the need to avoid increases in unnecessary and unmanageable workload burdens. This could include a review of |
flexibly to welcome back all pupils at the start of the autumn term.

- They should discuss and agree any changes to staff roles with individuals.
- You should ensure that appropriate support is made available for pupils with SEND, for example by deploying teaching assistants and enabling specialist staff from both within and outside the school to work with pupils in different classes or year groups.
- Many staff in special settings provides interventions or care involving close contact to children and young people who may not be grouped together under the system of controls adopted by a setting.
- Furthermore, some staff will work across settings. Where possible, these interventions and care should be provided as normal, because they will be important in enabling children and young people to access and benefit from education.
- Supply teachers, peripatetic teachers and/or other temporary staff can move between schools. They should ensure they minimise contact and maintain as much distance as possible from other staff.
- Staff who deliver these interventions will need to be particularly rigorous about hand washing and respiratory hygiene (catch it, bin it, kill it), but additional PPE compared to what they would normally use for those interventions, is not recommended, unless dealing with symptomatic children or young people.
- The specialisation and the peripatetic nature of much staffing in special settings also makes the flexible deployment of staff more challenging, for example in cases where only existing practices in this respect and schools may wish to draw on DfE’s workload reduction toolkit. DfE has also published a range of resources, including case studies to support remote education and help address staff workload, this includes case studies on managing wellbeing.

MDAs in school, who are also cleaners in the evening will clean over lunchtime hours. This is to ensure the school has enhanced cleaning of all classrooms and communal areas and to minimise mixing with staff and children.

Teaching assistants will supervise their bubble throughout lunchtime- again this is to minimise mixing of adults and children. Teaching assistants will take their lunch at a suitable time, when the children are in class with the teacher.

Specialist Spanish teacher will continue to work across 3 schools (OB WW and Hucklow). stringent measures will be in place when moving around school and teaching- must ensure there is no close or proximity contact with staff and where possible with children.

Nurture groups have been organised in a way that minimise mixing between year group bubbles. These groups have been kept to small numbers to make social distancing easier.

Any redeployment should not be at the expense of supporting pupils with SEND. Head teachers should be satisfied that the person has the appropriate skills, expertise and experience to carry out the work, and discuss and agree any proposed changes in role.
<table>
<thead>
<tr>
<th>Supply teachers and other temporary or peripatetic teachers</th>
<th>one member of staff is trained in a particular intervention, and that member of staff needs to self-isolate due to coronavirus (COVID-19) symptoms, it will generally not be possible to move a staff member without the training into that role.</th>
<th>or responsibility with the member of staff. This includes ensuring that safe ratios are met, and/or specific training undertaken, for any interventions or care for pupils with complex needs where specific training or specific ratios are required. The Education Endowment Foundation (EEF) has published guidance on making the best use of teaching assistants to help primary and secondary schools. Aim to limit use of supply cover. AHTs and Level 3 TAs to cover short term absence where possible.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• Where support staff capacity is available, schools may consider using this to support catch-up provision or targeted interventions.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Teaching assistants may also be deployed to lead groups or cover lessons, under the direction and supervision of a qualified, or nominated, teacher (under the Education (Specified Work) (England) Regulations 2012 for maintained schools and non-maintained special schools and in accordance with the freedoms provided under the funding agreement for academies).</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Schools can continue to engage supply teachers and other supply staff during this period. Supply staff and other temporary workers can move between schools, but they will want to consider how to minimise the number of visitors to the school where possible. Where it is necessary to use supply staff and to welcome visitors to the school such as peripatetic teachers, those individuals will be expected to comply with your arrangements for managing and minimising risk, including taking particular care to maintain distance from other staff and pupils.</td>
<td>It is recommended that you consider using DfE’s and Crown Commercial Service’s agency supply deal when hiring agency workers, as this offers a list of preferred suppliers that must be transparent about the rates they charge.</td>
</tr>
<tr>
<td>Expectation and deployment of ITT trainees</td>
<td>Trainees could:</td>
<td>This advice for supply teachers also applies to other temporary staff working in schools such as support staff working on a supply basis, peripatetic teachers such sports coaches and those engaged to deliver before and after school clubs.</td>
</tr>
<tr>
<td>------------------------------------------</td>
<td>-----------------</td>
<td>----------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td></td>
<td>● To minimise the numbers of temporary staff entering your premises, and secure best value, you may wish to use longer assignments with supply teachers and agree a minimum number of hours across the academic year.</td>
<td><strong>Expectation and deployment of ITT trainees</strong> Trainees could: ● take responsibility, with the usual mentor oversight, for small groups of pupils across or within years, adapting resources for such groups, creating online learning materials, re-planning sequences of lessons or delivering catch-up lessons ● be engaged in wider professional activity, for instance tackling pupil, family and school needs by learning about, identifying and addressing challenges such as vulnerability, mental health problems or safeguarding issues ● develop or engage in working groups to share best practice around resilience, commitment and team-working ● Work in pairs or groups to co-plan, co-teach and co-assess lessons with their mentors or other trainees. Paired and group placements, where these are possible, benefit trainees, mentors and teaching staff, promoting a greater sense of team collaboration, ongoing professional learning and reductions in workload</td>
</tr>
<tr>
<td></td>
<td>This is not intended to be exhaustive and ITT partnerships will need to ensure they have identified and comply with all legislation and guidance relevant to ITT.</td>
<td>It is strongly encouraged that schools consider hosting ITT trainees. Demand for teacher training is high this year and, while it is understandable that schools will have prioritised other activity, there is a risk that insufficient training places will be available. ITT trainees have the potential to play a significant role in supporting schools. Schools should consider how they could host ITT trainees, and discuss with relevant ITT providers how this can be done flexibly and innovatively to help meet both school and trainee needs. Deployment decisions will need to take into account the skills and capacity of the trainees in question.</td>
</tr>
</tbody>
</table>
### Safeguarding

- Schools should consider revising their child protection policy (led by the Designated Safeguarding Lead) to reflect the return of more pupils. Schools must have regard to the statutory safeguarding guidance, *keeping children safe in education* and should refer to the [coronavirus (COVID-19): safeguarding in schools, colleges and other providers guidance](https://gov.uk/government/publications/coronavirus-covid-19-safeguarding-in-schools-colleges-and-other-providers-guidance).
- Designated safeguarding leads (and deputies) should be provided with more time, especially in the first few weeks of term, to help them provide support to staff and children regarding any new safeguarding and welfare concerns and the handling of referrals to children’s social care and other agencies where these are appropriate, and agencies and services should prepare to work together to actively look for signs of harm.
- Communication with school nurses is important for safeguarding and supporting wellbeing, as they have continued virtual support to pupils who have not been in school.

### Building checks

- It is important that, prior to reopening for the autumn term, all the usual pre-term building checks are undertaken to make the school safe.
- If buildings have been closed or had reduced occupancy during the coronavirus (covid-19) outbreak, water system stagnation can occur due to lack of use, increasing the risks of Legionnaires’ disease. Advice on this can be found in the guidance on [Legionella risks during the coronavirus outbreak](https://gov.uk/government/publications/legionella-risks-during-the-coronavirus-outbreak).
- Additional advice on safely reoccupying buildings can be found in the Chartered Institute of Building Services Engineers’ guidance on [emerging from lockdown](https://www.cibse.org/technical-guidance/building-safely-emerging-from-lockdown).

---

All building checks have been undertaken. Remind staff about importance of ventilation.
- Once the school is in operation, it is important to ensure good ventilation. Advice on this can be found in Health and Safety Executive guidance on [air conditioning and ventilation during the coronavirus outbreak](#).
- In classrooms, it will be important that schools improve ventilation, (for example, by opening windows).

<table>
<thead>
<tr>
<th>Educational Visits</th>
</tr>
</thead>
<tbody>
<tr>
<td>In the autumn term, schools can resume non-overnight domestic educational visits. These trips should include any trips for pupils with SEND connected with their preparation for adulthood (for example, workplace visits, travel training etc.).</td>
</tr>
<tr>
<td>Schools should also make use of outdoor spaces in the local area to support delivery of the curriculum. As normal, you should undertake full and thorough risk assessments in relation to all educational visits to ensure they can be done safely. As part of this risk assessment, you will need to consider what control measures need to be used and ensure they are aware of wider advice on visiting indoor and outdoor venues.</td>
</tr>
<tr>
<td>This should be done in line with protective measures, such as keeping children within their consistent group, and the coronavirus (COVID-19) secure measures in place at the destination.</td>
</tr>
<tr>
<td>In the first term only local visits will take place- the school will use its own minibus or walk if possible.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>School Uniform</th>
</tr>
</thead>
<tbody>
<tr>
<td>Uniforms do not need to be cleaned any more often than usual, nor do they need to be cleaned using methods which are different from normal.</td>
</tr>
<tr>
<td>Schools should consider how pupil non-compliance is managed, taking a mindful and considerate approach in relation to parents who may be experiencing financial pressures.</td>
</tr>
<tr>
<td>The expectation is that all children will wear school uniform.</td>
</tr>
</tbody>
</table>
| Extra curricular provision – Breakfast & after School clubs | • Schools should consider resuming any breakfast and after-school provision, where possible, from the start of the autumn term. Therefore they need to consider:—
  • The number of pupils attending the clubs so that social distancing is maintained, where possible
  • Entering and existing the club is done in a phased way “one in one out”
  • All food items are taken to the pupils seating area by a member of staff
  • All food items and utensils are collected by staff and handed over to the catering staff
  • All tables, chairs, hard surfaces etc. are cleaned with an approved product |

|  | Such provision will help ensure pupils have opportunities to re-engage with their peers and with the school, ensure vulnerable children have a healthy breakfast and are ready to focus on their lessons, provide enrichment activities, and also support working parents. |

|  | The school is planning to offer a variety of after school clubs after the October half term. |

|  | The school is in the process of applying for extra funding for breakfasts- this, if successful, will be delivered to classrooms during morning work. |
## Section 3: Curriculum, behaviour and pastoral support

<table>
<thead>
<tr>
<th>Curriculum Expectations</th>
<th>The key principles that underpin the advice on curriculum planning are:</th>
<th>• Teach an ambitious and broad curriculum in all subjects from the start of the autumn term, but make use of existing flexibilities to create time to cover the most important missed content.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• Education is not optional: all pupils receive a high-quality education that promotes their development and prepares them for the opportunities, responsibilities and experiences of later life.</td>
<td>The curriculum has been revised and is ready to deliver from Sept 20- the curriculum is broad and balanced- giving children rich, engaging and well sequence learning. The school will promote core subjects but link learning across foundation where possible.</td>
</tr>
<tr>
<td></td>
<td>• The curriculum remains broad and ambitious: all pupils continue to be taught a wide range of subjects, maintaining their choices for further study and employment.</td>
<td>• Aim to return to the school’s normal curriculum in all subjects by summer term 2021.</td>
</tr>
<tr>
<td></td>
<td>• Remote education, where needed, is high quality and aligns as closely as possible with in-school provision: schools and other settings continue to build their capability to educate pupils remotely, where this is needed.</td>
<td>• Develop remote education so that it is integrated into school curriculum planning</td>
</tr>
<tr>
<td></td>
<td>Informed by these principles, DfE asks that schools and other settings meet the following key expectations if considering revisions to their school curriculum for academic year 2020 to 2021:</td>
<td>• First week and half used for transition and initial assessments</td>
</tr>
<tr>
<td></td>
<td>• Teach an ambitious and broad curriculum in all subjects from the start of the autumn term, but make use of existing flexibilities to create time to cover the most important missed content.</td>
<td>These baseline assessments added to Tracker and used to plan for next stages.</td>
</tr>
<tr>
<td></td>
<td>• Teach an ambitious and broad curriculum in all subjects from the start of the autumn term, but make use of existing flexibilities to create time to cover the most important missed content.</td>
<td>Use of White Rose materials to pick up maths from the previous term.</td>
</tr>
</tbody>
</table>

| Specific points for early years foundation stage (EYFS) to key stage 3 | For children in nursery settings, teachers should focus on the prime areas of learning, including: communication and language, personal, social and emotional development (PSED) and physical development. | For children in nursery settings, teachers should focus on the prime areas of learning, including: communication and language, personal, social and emotional development (PSED) and physical development. |
- For pupils in Reception Year, teachers should also assess and address gaps in language, early reading and mathematics, particularly ensuring children's acquisition of phonics knowledge and extending their vocabulary. Settings should follow updates to the [EYFS disapplication guidance](#).
- For nursery settings and Reception, consider how all groups of children can be given equal opportunities for outdoor learning.

- For pupils in key stages 1 and 2, school leaders are expected to prioritise identifying gaps and re-establish good progress in the essentials (phonics and reading, increasing vocabulary, writing and mathematics), identifying opportunities across the curriculum so they read widely, and developing their knowledge and vocabulary. The curriculum should remain broad, so that the majority of pupils are taught a full range of subjects over the year, including sciences, humanities, the arts, PE/sport, RE and RHE.

| Musical instruments, choirs etc. | Transmission of the virus | Staff & Pupils | Schools should note that there may be an additional risk of infection in environments where children or others are singing, chanting, playing wind or brass instruments or shouting. This applies even if individuals are at a distance. Schools should consider how to reduce the risk, particularly when pupils are playing instruments or singing in small groups such as in music lessons by, for example, physical distancing and playing outside.

- Each pupil has their own individual instrument, the instrument is wiped down before and after use with an approved product / wipe
- The instrument is stored securely in a case with the pupils name on
- Pupils are regularly reminded not to use other pupils instruments

Schools may continue with music lessons providing the following measures are in place:

- Each pupil has their own individual instrument, the instrument is wiped down before and after use with an approved product / wipe
- The instrument is stored securely in a case with the pupils name on
- Pupils are regularly reminded not to use other pupils instruments
**Physical Education**

- Small groups of children can partake in a music lesson – but they must remain in their protective bubbles
  - The lessons can be provided by zoom / online conference call
  - If the music teacher visits the School – he/she must maintain social distancing at all times and adhere to all hygiene protocols that the School has in place
- Singing, wind and brass playing should not take place in larger groups such as school choirs and ensembles, or school assemblies. Further more detailed DfE guidance will be published shortly.
- Music lessons to happen in class with equipment not shared between yeargroups and cleaned thoroughly between classes.

- Pupils should be kept in consistent groups, sports equipment thoroughly cleaned between each use by different individual groups, and contact sports avoided.
- Outdoor sports should be prioritised where possible, and large indoor spaces used where it is not, maximising distancing between pupils and paying scrupulous attention to cleaning and hygiene. This is particularly important in a sports setting because of the way in which people breathe during exercise.
- External facilities can also be used in line with government guidance for the use of, and travel to and from, those facilities
- Schools are able to work with external coaches, clubs and organisations for curricular and extra-

- Schools should refer to the following advice:
  - guidance on the phased return of sport and recreation and guidance from Sport England for grassroot sport
  - advice from organisations such as the Association for Physical Education and the Youth Sport Trust

- Each class has a timetabled slot on the yard- in their designated area. Break times will be used for further physical activity- daily mile.
- PE lessons to be outdoors if possible, reminding children of distancing if indoors. Equipment to be thoroughly cleaned between sessions.

- Physical Education

- Each class has a timetabled slot on the yard- in their designated area. Break times will be used for further physical activity- daily mile.
- PE lessons to be outdoors if possible, reminding children of distancing if indoors. Equipment to be thoroughly cleaned between sessions.
| Behaviour Expectations / conflict management between pupils | Schools should consider updating behaviour policies with any new rules/policies, and communicate rules/policies clearly and consistently to staff, pupils and parents, setting clear, reasonable and proportionate expectations of pupil behaviour.  
- They should set out clearly at the earliest opportunity the consequences for poor behaviour and deliberately breaking the rules and how you will enforce the rules including any sanctions. This is particularly the case when considering restrictions on movement within school and new hygiene rules.  
- Schools will need to work with staff, pupils and parents to ensure that behaviour expectations are clearly understood, and consistently supported, taking account of individual needs and you should also consider how to build new expectations into their rewards system.  
- Staff are discouraged from physical intervention if pupils are fighting | Swimming to resume in the first term- school to follow swimming providers risk assessment.  
Further details are available at [Behaviour and discipline in schools](#).  
The disciplinary powers that schools currently have, including exclusion, remain in place. Permanent exclusion should only be used as a last resort. Where a child with a social worker is at risk of exclusion, their social worker should be informed and involved in relevant conversations.  
School behaviour policy updated to reflect changes. |
| Pupil Wellbeing & Support | De-escalation techniques should be used to try and calm situations  
Restraint should only be undertaken as a last resort by a qualified Team Teach trained member of staff  
Parents are regularly reminded of their responsibilities and behaviours on the School site  

Pupils may be experiencing a variety of emotions in response to the coronavirus (COVID-19) outbreak, such as anxiety, stress or low mood.  
This may particularly be the case for vulnerable children, including those with a social worker and young carers.  
It is important to contextualise these feelings as normal responses to an abnormal situation.  
Some may need support to re-adjust to school; others may have enjoyed being at home and be reluctant to return; a few may be showing signs of more severe anxiety or depression.  
Others will not be experiencing any challenges and will be keen and ready to return to school.  

Schools and school nurses need to work together to ensure delivery of the healthy child programme (which includes immunisation), identifying health and wellbeing needs which will underpin priorities for service delivery.  

School to follow advice and information from region Trauma Informed schools training.  
Pupil Wellbeing & Support  
Specific programme in place for children identified with needs- especially level 3, 4 and 5 on SSG grid.  

School consider the provision of pastoral and extra-curricular activities to all pupils designed to:  

- support the rebuilding of friendships and social engagement  
- address and equip pupils to respond to issues linked to coronavirus (COVID-19)  
- support pupils with approaches to improving their physical and mental wellbeing  
- Schools should also provide more focused pastoral support where issues are identified that

Part time timetable for children with particular needs.
individual pupils may need help with, drawing on external support where necessary and possible.
- consider support needs of particular groups that you are aware need additional help (for example, children in need), and any groups they identify as newly vulnerable on their return to school.
- consider how you are working with school nursing services to support the health and wellbeing of pupils; school nursing services have continued to offer support as pupils return to school – school nurses as leaders of the healthy child programme can offer a range of support including:
  - support for resilience, mental health and wellbeing including anxiety, bereavement and sleep issues
  - support for pupils with additional and complex health needs
  - supporting vulnerable children and keeping children safe
Section 5: Contingency planning for outbreaks

Contingency plans for outbreaks

For individuals or groups of self-isolating pupils, remote education plans should be in place. These should meet the same expectations as those for any pupils who cannot yet attend school at all due to coronavirus (COVID-19). (See section on remote education support).

In the event of a local outbreak, the PHE health protection team or local authority Public Health team may advise a school or number of schools to close temporarily to help control transmission. Schools will also need a contingency plan for this eventuality. This may involve a return to remaining open only for vulnerable children and the children of critical workers, and providing remote education for all other pupils.

<table>
<thead>
<tr>
<th>Remote Education Support</th>
<th>In developing these contingency plans, you are expected to:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>● use a curriculum sequence that allows access to high-quality online and offline resources and teaching videos, and that is linked to the school’s curriculum expectations</td>
</tr>
<tr>
<td></td>
<td>● give access to high quality remote education resources</td>
</tr>
<tr>
<td></td>
<td>● select the online tools that will be consistently used across the school in order to allow interaction, assessment and feedback, and make sure staff are trained in their use</td>
</tr>
<tr>
<td></td>
<td>● provide printed resources, such as textbooks and workbooks, for pupils who do not have suitable online access</td>
</tr>
<tr>
<td></td>
<td>● Recognise that younger pupils and some pupils with SEND may not be able to access remote education without adult support, and so</td>
</tr>
<tr>
<td></td>
<td>● Where a class, group or small number of pupils needs to self-isolate, or there is a local lockdown requiring pupils to remain at home, there is an expectation that you have the capacity to offer immediate remote education.</td>
</tr>
<tr>
<td></td>
<td>● You should consider how to continue to improve the quality of your existing offer and have a strong contingency plan in place for remote education provision by the end of September.</td>
</tr>
<tr>
<td></td>
<td>● This planning will be particularly important to support a scenario in which the logistical challenges of remote provision are greatest, for example where large numbers of pupils are required to remain at home.</td>
</tr>
</tbody>
</table>
schools should work with families to deliver a broad and ambitious curriculum.

When teaching pupils remotely, you are expected to:

- set assignments so that pupils have meaningful and ambitious work each day in a number of different subjects
- teach a planned and well-sequenced curriculum so that knowledge and skills are built incrementally, with a good level of clarity about what is intended to be taught and practised in each subject
- provide frequent, clear explanations of new content, delivered by a teacher in the school or through high quality curriculum resources and/or videos
- gauge how well pupils are progressing through the curriculum, using questions and other suitable tasks and set a clear expectation on how regularly teachers will check work
- enable teachers to adjust the pace or difficulty of what is being taught in response to questions or assessments, including, where necessary, revising material or simplifying explanations to ensure pupils’ understanding
- plan a programme that is of equivalent length to the core teaching pupils would receive in school, ideally including daily contact with teachers

Teachers will prepare packs for Children who need to individually self isolate. These learning packs will reflect current learning as well as the child's needs and attainment levels.

The school will continue to prepare home learning packs if a bubble is required to isolate- weekly phone calls will also resume in this instance.
Sharing your risk assessment

You should share the results of your risk assessment with your entire workforce. If possible, you should consider publishing it on your website to provide transparency of approach to parents, carers and pupils (HSE would expect all employers with over 50 staff to do so). Any updates to the risk assessment should be uploaded so that parents and carers are not seeing an out of date version of the risk assessment.

Monitoring and review of risk controls

You should monitor and review the preventive and protective measures regularly, to ensure the measures are working, and taking action to address any shortfalls, and update the risk assessment as necessary.

Roles and responsibilities

All employers are required by law to protect their employees, and others, from harm. Under the Management of Health and Safety at Work Regulations 1999, the minimum employers must do is:

- identify what could cause injury or illness in the organisation (hazards)
- decide how likely it is that someone could be harmed and how seriously (the risk)
- take action to eliminate the hazard, or if this isn’t possible, control the risk

Given the employer landscape in schools is varied, we have set out here what the existing DfE Health and safety: responsibilities and duties for schools guidance states about the roles and responsibilities for health and safety.

In schools: the employer is accountable for the health and safety of school staff and pupils. The day-to-day running of the school is usually delegated to the Headteacher and the school management team. In most cases, they are responsible for ensuring that risks are managed effectively. This includes health and safety matters.

Schools must appoint a competent person to ensure they meet their health and safety duties. The Health and Safety Executive (HSE) provides more information on the role of Headteachers and employers in the guidance The role of school leaders - who does what and a simple guide
to who the employer is in each type of school setting in its FAQs section, under ‘Who is accountable for health and safety within a school?’. References to actions by employers in this guidance may in practice be carried out by Headteachers in schools, but the employer will need to assure themselves that they have been carried out, as they retain the accountability for health and safety.

**Consulting employees (general)**

It is a legal requirement that employers must consult with the health and safety representative selected by a recognised trade union or, if there isn’t one, a representative chosen by staff. As an employer, you cannot decide who the representative will be.

At its most effective, full involvement of staff creates a culture where relationships between employers and staff are based on collaboration, trust and joint problem solving. As is normal practice, staff should be involved in assessing workplace risks and the development and review of workplace health and safety policies in partnership with the employer. Consultation does not remove the employer’s right to manage. They will still make the final decision but talking to employees is an important part of successfully managing health and safety.

Headteachers are encouraged to ensure that consultation on any changes to risk assessments that will be in place for the start of the autumn term commence with staff before the summer break, to ensure that those that are on term-time only contracts have adequate time to contribute.

**Resolving issues and raising concerns**

Employers and staff should always come together to resolve issues. As providers widen their opening, any concerns in respect of the controls should be raised initially with line management and trade union representatives, and employers should recognise those concerns and give them proper consideration. If that does not resolve the issues, the concern can be raised with HSE. Where the HSE identify employers who are not taking action to comply with the relevant public health legislation and guidance to control public health risks, they will consider taking a range of actions to improve control of workplace risks. The actions the HSE can take include the provision of specific advice to employers through to issuing enforcement notices to help secure improvements.
Guide to donning and doffing standard Personal Protective Equipment (PPE)

for health and social care settings

Donning or putting on PPE

Before putting on the PPE, perform hand hygiene. Use alcohol handrub or gel or soap and water. Make sure you are hydrated and are not wearing any jewellery, bracelets, watches or stoned rings.

1. Put on your plastic apron, making sure it is tied securely at the back.
2. Put on your surgical face mask, if tied, make sure it is secured at crown and nape of neck. Once it covers the nose, make sure it is extended to cover your mouth and chin.
3. Put on your eye protection if there is a risk of splashing.
4. Put on non-sterile nitrile gloves.
5. You are now ready to enter the patient area.

Doffing or taking off PPE

Surgical masks are single session use, gloves and apron should be changed between patients.

1. Remove gloves, grasp the outside of the cuff of the glove and peel off, holding the glove in the gloved hand, insert the finger underneath and peel off second glove.
2. Perform hand hygiene using alcohol hand gel or rub, or soap and water.
3. Snap or unfasten apron ties the neck and allow to fall forward.
4. Once outside the patient room, remove eye protection.
5. Perform hand hygiene using alcohol hand gel or rub, or soap and water.
6. Remove surgical mask.
7. Now wash your hands with soap and water.

Snap waste ties and fold apron in on itself, not handling the outside as it is contaminated, and put into clinical waste.

1
Establishing Protective Social Bubbles in Settings – Autumn term

Back on 16th May 2020 the Education Secretary Gavin Williamson published a statement on the Government’s response to coronavirus and the plans to begin returning to school safely. 

This outlined the intention to increase the number of children/pupils in settings and described that this would be done using ‘Protective Social Bubbles’.

Although this may have felt to be a very new and different approach in your settings it is a familiar and science based approach in supporting outbreak management. The UK is following many other countries such as Denmark, Germany and Belgium in using the protective social bubble model in settings. https://www.bbc.co.uk/news/education-52550470

Schools/settings are being asked to prepare to welcome all children and young people back this autumn and expand the bubbles. The prevalence of coronavirus (COVID-19) has decreased, the NHS Test and Trace system is up and running, and there are now clear measures that need to be in place to create safer environments within schools. The social bubbles have been working effectively in settings up to now and even though the class sizes and therefore bubbles are increasing the principles remain the same.

What the guidance suggests re social bubbles?

The overarching principle to apply is reducing the number of contacts between children and staff. This can be achieved through keeping groups separate (in ‘bubbles’) and through maintaining distance between individuals. These are not alternative options and both measures will help, but the balance between them will change depending on:

children’s ability to distance
the lay out of the school
the feasibility of keeping distinct groups separate while offering a broad curriculum (especially at secondary)

School settings are being advised:
Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. They have been used in schools in the summer term in recognition that children, and especially the youngest children, cannot socially distance from staff or from each other and this provides an additional protective measure. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate, and keep that number as small as possible.

At primary school, and in the younger years at secondary (key stage 3), schools may be able to implement smaller groups the size of a full class. If that can be achieved, it is recommended, as this will help to reduce the number of people who could be asked to isolate should someone in a group become ill with coronavirus (COVID-19).

Schools should assess their circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around school, they can look to implement year group sized ‘bubbles'

For Early Years Settings:

From 20 July, early years settings will not be required to arrange children and staff in small, consistent groups. Settings should still consider how they can minimise mixing within settings, for example where they use different rooms for different age groups, keeping those groups apart as much as possible.

How do Protective Social Bubbles work? The principle aim of the 'bubbles' is that it enables contact with individuals outside the household but keep the numbers of people tightly restricted. This therefore has the effect of reducing transmission and helps prevent the spread of the virus. If we operate this system as effectively as possible and only interact within a small group of people it can prevent the virus spreading further. It means that the aim of the system in place is
to keep children in small groups with as little contact with others as possible. The same children in the ‘bubble’ then spend their school day in a kind of virtual cocoon with no or very limited cross over with others each day. These micro-groups/bubbles of pupils can arrive at separate times (staggering arrival/departure times for different bubbles), each bubble eat their lunch separately, stay in their own zones in the playground. The success and the benefit of the social bubbles is key if a positive case is confirmed and identified in a setting. Having a robust protective bubble model significantly helps with outbreak management and contact tracing. It means that ‘bubbles’ can be isolated quickly and where necessary only the bubble where the index case has spent time is isolated, meaning that the setting can remain open and other ‘bubbles’ continue. Managing Protective Social Bubbles Settings are doing all that you can to manage within the current circumstances and there will be times when the bubble model cannot and does not operate exactly as the model is intended to. Please don’t worry about this. The key principles should be: Where possible operate protective social bubbles in your settings Within each bubble try to maintain the same children and consistent staff where possible (having identified staff working/allocated in specific bubbles where possible) All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. Staff should try to adhere to social distancing and infection prevention control measures (e.g. hand washing) in the bubble that they work in. Keep the bubble of children together during the school day. This means the same group of children eating lunch together, going out together at playtime. Schools should make small adaptations to the classroom to support distancing where possible. That should include seating pupils side by side and facing forwards, rather than face to face or side on, and might include moving unnecessary furniture out of classrooms to make more space. When using larger groups the other measures from the system of controls become even more important, to minimise transmission risks and to minimise the numbers of pupils and staff who may need to self-isolate. It is not necessary to have siblings in the same bubble if they are in different year groups (e.g. Y1 and Y6). Should a positive case be identified in one bubble a sibling would have to isolate who may be in another bubble (due to them living in the same household as the positive case), but unless that sibling themselves tested positive the other bubble could continue – As ‘contacts of contact’ are not necessarily isolated and this would be picked up via contact tracing. Schools may keep children in their class groups for the majority of the classroom time, but also allow mixing into wider groups for specialist teaching, wraparound care and transport, or for boarding pupils in one group residentially and another during the school day. Where possible protective social bubbles should use the same classroom regularly. If at any time you need to use a classroom for a
different bubble of children it is recommended that the classroom is cleaned before the introduction of the new bubble. Clean surfaces thoroughly and pay particular attention to cleaning touch points such as door handles and light switches. Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles. Encourage parents/carers to support the efforts that you are making by discouraging children to mix with other children outside their household at the end of the school day. Promoting social distancing where possible Frequently undertaking infection prevention control and regularly hand washing with soap and hot water for a minimum of 20 seconds.

Appendix 2

Schools celebrations and presents

For those in transition year groups it is not possible that many of the traditional end of term activities will be able to take place, for example, whole year or class assemblies with parents/carers, school trips. Schools have been contacting the Public Health team to describe
some of the ways in which they plan to mark the end of term. There was also guidance provided in a previous Bulletin which shared options for implementing transition visits for Y6 pupils up to secondary school. Some primary schools are organising outdoor events for social protective bubbles where social distancing can be maintained and lots of thought is going in to what settings can do with the space that you have.

There have also been questions asked re:

Gifts for teachers

These should be discouraged however if you do find that parents/carers have bought gifts then it will be necessary for the parent to take the presents themselves (not hand them to a staff member else it becomes sort of pass the parcel) to a room where the presents can be left. Once the parent has put the present in the room themselves, leave them in the room for 72 hours (if receiving numerous presents at different times you may need to ask the parent to put a post it note with the date the present is left in the room). Remind parents not to come to the site or enter a building if they are feeling unwell and post signs to reinforce this message.

After 72 hours the staff member whom the present is for can go into the room to retrieve his or her gift. This will minimise risk and just needs a space where the presents can be stored securely and no children access etc. Only the parent dropping the present and member of staff who it belongs to should ideally handle the gift.

End of term celebrations.

Wherever possible schools should discourage the sharing of food. If the social bubble are considering a celebration event then ask children to bring in their own food for them to eat themselves. Or if inviting parents/carers and pupils for a picnic please recommend that they bring their own food and that it is not shared.

Sharing of food and ordering of takeaway food is to be discouraged as inevitably this means children/staff touching more things and therefore increased risk.

If parents/carers are to be invited, ensure social distancing and strict hand washing/ hygiene is adhered to closely. Classes should continue to maintain the social bubbles and mixing of classes should be avoided.
Where possible, have the celebration take place outside. It is understandable that weather and other factors may make an outside event unrealistic.

Appendix 3
Asymptomatic worker: flowchart describing return to work following a SARS-CoV-2 test

1. Routine SARS CoV-2 test result for individual without symptoms:
   - Positive: Complete self-isolation for 7 days from the day test performed → Well → Return to work
   - Negative: Return to/remain at work
   - Inconclusive: Request repeat test via same route as original test → Self-isolation not required, can continue to work

2. Clinical symptoms have improved and no fever for 48 hours:
   → Return to work

3. Subsequently develop symptoms:
   → Return to/remain at work

4. Well:
   → Return to work

5. Remain in self-isolation for 7 days from onset of symptoms:
   → Return to work

Notes:
1. This flow chart is not relevant to workers identified as a contact via the test and trace system (refer to Test and trace guidance).
2. Refer to Stay at Home Guidance.
3. Without medication.
4. If a cough or a loss of or change in normal sense of smell (anosmia) or taste is the only persistent symptom, workers can return to work if they are medically fit to return as these symptoms are known to persist for several weeks in some cases.

Version 2.2 14 June 2020
Symptomatic worker: flowchart describing return to work following a SARS-CoV-2 test

1. If the testing was done because the individual was identified as a contact via the test and trace system refer to Test and trace guidance.
2. Refer to Stay at Home Guidance.
3. Consider contacting the NHS online coronavirus service, or in a medical emergency dial 999.
4. Without medication.
5. If a cough or a loss or change in normal sense of smell (anosmia) or taste is the only persistent symptom, workers can return to work if they are medically fit to return as these symptoms are known to persist for several weeks in some cases.

Routine SARS CoV-2 test result for individual with symptoms:

- Positive
  - Complete self-isolation for 7 days
  - Clinical symptoms have improved and no fever for 48 hours
  - Return to work
  - Still unwell
  - Remain in isolation until clinical symptoms have improved and no fever for 48 hours
  - Return to work

- Negative
  - Discussion with line manager and appropriate local risk assessment
  - Return to work when medically fit to do so
  - Repeat test based on clinical assessment

- Inconclusive
  - Complete self-isolation for 7 days from symptom onset
  - Clinical symptoms have improved and no fever for 48 hours
  - Return to work
  - Request repeat test if onset of symptoms was less than 5 days ago
  - Return to work
